PROFESSIONAL SUMMARY

Motivated Computer Science student specializing in Artificial Intelligence and Machine Learning with a strong foundation in programming, data structures, and core computer science subjects. Passionate about applying AI/ML concepts to real-world problems and building practical projects to enhance problem-solving and analytical skills. Actively seeking internships or entry-level opportunities to grow as an AI/ML engineer.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Maharana Institute of Professional Studies, Kanpur, U.P

08/2024 –

08/2027

- Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Machine Learning, Software Engineering
- CGPA: 7.2/10

Kanpur, U.P

Diploma of Mechanical Engineering (Production)

BSBA Government Polytechnic, Auraiya, U.P

07/2021 – 07/2024

- Relevant Coursework: AutoCAD, Theory of Machine, Machine Design, Automobile Engineering
- Percentage: 73%

Auraiya, U.P

TECHNICAL SKILLS

Programming Languages

- Python (Beginner–Intermediate)
- C++
- Java

AI / ML Foundations

- Machine Learning fundamentals
- Natural Language Processing

Computer Science Core

- Data Structures & Algorithms
- Design and Analysis of Algorithms
 - Object-Oriented Programming (OOPs)
 - Database Management Systems
- Operating System basics

Web & Tools

- HTML, CSS, Node.js
- Git & GitHub, Linux
- VS Code, Jupyter Notebook

CERTIFICATIONS

- Data Analytics– Novi Tech R&D (ongoing)
- AI & ML Academic Coursework – Hp Life

ACADEMIC PROJECTS

AI-Based Resume Analyzer & Job Recommendation System

Ongoing

Tech Stack: Python, Machine Learning, NLP (planned), HTML

- Designing a system to analyze resumes and extract skills using NLP techniques
- Focused on real-world application for job seekers and recruiters

AI-Based Spam Mail Detection System([ANADI-rgb/AI-Spam-Detection-System](#))

- Built a machine learning model to classify emails as spam or ham
- Used text preprocessing and feature extraction techniques (Bag of Words / TF-IDF)
- Implemented and evaluated classification algorithms using Python

SOFT SKILLS

- Problem Solving
- Quick Learner
- Good Communication Skill
- Logical Thinking
